CAREER OBJECTIVE

To obtain a challenging position in a reputed organization where I can effectively contribute my skills as a software professional, grow consistently through continuous learning, and work towards the success of the company while building a strong foundation for my career.

EDUCATION

Bachelor of Computer Application (BCA)
Uttaranchal University, Dehradun

Aug 2023 – June 2026
CGPA : 7.89

PROJECTS

Front-end Developer

Amazon Webpage Clone

Jan 2025 – Apr 2025

- **Tools:** HTML, CSS, JavaScript, Git, GitHub
- Built a responsive Amazon-style webpage from scratch using HTML, CSS, and JavaScript.
- Designed the homepage layout with header, navigation bar, search bar, product grid, and footer sections.
- Implemented interactive features like product hover effects, carousel banners, and add-to-cart button functionality.
- Used CSS Flexbox/Grid and media queries to ensure cross-device responsiveness (desktop, tablet, mobile).
- Applied clean and structured styling to replicate the real-world e-commerce look and feel.
- Version-controlled the project with Git and hosted it on GitHub for collaboration and deployment.

Pokémon Go Website

May 2025 – July 2025

- **Tools:** HTML, CSS, JavaScript, Git, GitHub
- Designed and developed a responsive website inspired by *Pokémon Go*, showcasing Pokémon Go event, game guides, and interactive content.
- Built a clean and engaging homepage layout featuring navigation menus, Pokémon showcase cards, and themed styling.
- Implemented dynamic features with JavaScript, including image carousels, search functionality, and hover effects on Pokémon images.
- Applied CSS Flexbox/Grid and media queries to ensure smooth performance across desktop, tablet, and mobile devices.
- Focused on user experience by integrating an intuitive design, Pokémon-themed color schemes, and easy navigation.
- Version-controlled the project with Git and deployed it on GitHub Pages for public access.

Personal Portfolio Website

June 2025 – Aug 2025

- Designed and developed a personal portfolio website to showcase all academic and self-driven projects from 1st to 5th semester, reflecting growth in development skills and creativity.
- Implemented clean UI/UX with responsive design principles to ensure optimal viewing across devices.
- Categorized projects by semester and topic, including MERN apps, games, academic tools, and experimental projects.
- Integrated project previews, descriptions, GitHub links, and live demos to provide a complete portfolio experience.
- Deployed the website using GitHub Pages, making it easily accessible to recruiters, mentors, and peers.
- Website Link: <https://adityanautiyal908.github.io/Portfolio/>
- **Tools:** HTML, CSS, JavaScript, Bootstrap, Git, GitHub

Developed an interactive learning platform website designed to help users practice coding problems, attempt MCQs, and track progress for continuous skill improvement.

Key Features:

- Implemented MCQ & coding problem modules with real-time output checking.
- Designed a user-friendly interface for smooth navigation and engagement.
- Integrated MongoDB for storing questions, answers, and user progress.
- Created a secure authentication system for personalized learning experience.

Tech Stack: HTML, CSS, JavaScript, Bootstrap, PHP, MongoDB

Impact:

- Helped students improve problem-solving skills in multiple programming languages.
- Encouraged habit-based learning through gamification and progress tracking.

TECHNICAL SKILLS

Languages: Html, CSS, Java Script, Java, php

Frameworks & Libraries: Next.js, Tailwind CSS, Bootstrap

Developer Tools: Git, GitHub, npm, VS code, Postman

Technologies: Node.js

Database: MySQL, MongoDB

SOFT SKILLS

Problem Solving

Communication Skills

CERTIFICATIONS

- Completed certification in Java from Infosys Springboard
- Completed certification in Web Development from Udemey

ACHIEVEMENTS

- Participation in Code Ke Boss

INTERESTS

- Meeting New People
- Playing Games
- Learning New technology
